WHITE SLAVES.—The last news from Havana represents the Coolie trade as going forward with increased avidity. 599 free colonists from China have been lately set ashore from two vessels, one of which lost 60 coolies by death on the passage. They came by way of St. Helena. 14,891 Asiatics had been set ashore during the year up to the 23d of Teptember; 2,304 others had died on the passage. It is represented that the treatment of these poor wretches on the plantations is cruel in the extreme. The following circumstance is related in a letter from Havana, dated Sept. 23, and which our Yet every effort to disabuse his mind of this singular Northern abolitionists should reflect upon at their leis- fancy has thus far proved unavailing. " A wealthy Creole family are the proprietors of several sugar estates. One of these is tilled almost altogether by Asiatics, who are, in derision I suppose, called free colonists. Upon this estate recently, for several successive days, three or four of these Asiatics committed suicide. The number that did so at length attracted the attention of the authorities, and an investigation was entered into, so as if possible to ascertain the cause of so many of these unhappy men taking their own lives. By examining the persons not only of the deceased, but also those of the living Asiatics, it was discovered that they were covered with scars caused by the whip, from the hape of their necks down to their very ankles-that no negro had ever been more cruelly whipped.

" Under the terms of the contracts entered into by these Chinese, a copy of which in Chinese and Spanish is in my possession, they are bound to submit to 'the discipline of the estates' upon which they are engaged. The Effects of the Crisis in Massachusetts.— The Pemberton Mills, at Lawrence, are already closing up their work and discharging their help. A Lawrence paper says that there have been rumors upon the street a regard to the Bay State and Atlantic Mills, but there is thus far no indication that such a calamity is to plug of tobacco; have you got the article?" befall the city. It is stated that there is no talks of having been married fifty years, as if that were prospect of Mason & Co's works resuming operations at nothing extra .- N. Y. Express. present. At Fall River, in consequence of the factory suspension in that city, suffering begins to be felt among the poorer classes there. The Star says: "Whole families are suffering for bread—the father, eager and willing to work, but nothing to do. We have heard tales of distress that would bring tears to the eyes of the most indifferent. These people must have bread or starve, and this is not a community to allow the latter." There is considerable distress in the shoe towns of Essex coun-

ty. During the last week many hands were discharged in Lynn, and the winter prospects for the poor are gloomy. The Newburyport Herald hears that orders have been given for the discontinuance of work in onehalf of the Globe Mills, and adds, "If these times continue, we cannot see why they will not all suspend, and much other business, to the injury of the people, both physically and morally.

Our Northern friends might learn a lesson from this but it is not expected that they will do so. If political economists would open their eyes, they might see that "free labor" is a failure; but as that is a thing not to be thought of, we suppose, "freemen" will go on starving while the economy of our slave system is misrepresented and denounced.—Charleston Courier.

REVIEW OF THE WILMINGTON MARKET, FOR THE WEEK ENDING OCT. 15TH, 1857.

The unfavorable state of monetary matters which has existed for two or three weeks past, has caused the market to at a decline of 35 a 50 cents on the former, and 3 cents ? gallon on the latter. Rosin of all grades has ruled exceedingly dull at lower figures, and there is little or no disposition on the part of dealers to operate, even at the decline. Tar price has materially declined. Exchange on the Northern since my last repot, 598 boxes, 236 boxes of which have gone cities is scarce, and has been selling at 2 a 3 per cent. Only a to Boston, the remainder to New York. few scattering lots of Cotton on market, and we hear of no does.—The highest offer of which I have heard is 10 reals for sales; buyers unwilling to operate. The market for Flour prime quality, and which has been refused. has ruled decidedly dull, and nothing has been done except in the retail way; receipts moderate and stock fair. The in moderate stock, and demand light; Corn has gone up a shade, owing to the light receipts; our quotation, however could not be obtained should the arrivals prove worthy of note ;-in Wheat there has been nothing done, the unfavorable advices having tended to keep buyers out of market.
